

Scotland Independence Poll

Fieldwork dates: GB **Interview Method:** Online

Population sampled: All Scottish adults aged 16+ years

Fieldwork dates: 17-21st March 2014

Sampling Method: A demographically representative sample of Scots were invited to participate on the survey, with sample selected invited to participate in proportion to population distribution across Scotland and to specific demographics including gender and age.

Sample size: 1,010 adults aged 18+

Data weighting: Data were weighted to the profile of all Scottish adults aged 16+. Data were weighted by sex, age, social grade and region. Targets for the weighted data were derived from Census 2011.

Past Vote Weighting: However, after demographic weighting the declared past votes of the sample may not exactly match the results of the last election (Scottish Parliament 2011 election - first Constituency vote), which implies some kind of *political imbalance* may still be present in the contacted sample, even if demographic balance is deemed to be good.

As a result, we take the declared past votes on any new poll and add it to recent similar polls we have conducted which contain the same question (recall of past vote to the 2011 Scottish Parliament election).

ICM compares the declared past votes derived in each poll to the actual result of the last Scottish Parliamentary election and gives a weight of 80% to the results of that election and 20% to the average of the most recent polls. This makes some allowance for people who genuinely misremember how they previously voted.

Questions: The computer tables attached in PDF format show each question, in full, in the order they were put to respondents, all response codes and the weighted and un-weighted bases for all demographics and other data including but not limited that published.

SCOTLAND INDEPENDENCE REFERENDUM POLL 4

Fieldwork : 17th-21st March 2014

Absolutes/col percents

Table 16

Q.9 As you may know, the Elections to the European Parliament will be held in May 2014. Many people have said they will not vote in that election, but how about you? On a scale of 1 to 10 where 10 means you are certain to vote and 1 means you are certain not to vote, how likely are you to cast your vote in that election?

Base: All respondents

SCOTLAND INDEPENDENCE REFERENDUM POLL 4

Fieldwork : 17th-21st March 2014

Absolutes/col percents

Table 23
Q.12 We would like you to think one more time about the Independence for Scotland referendum. As a bit of fun, we would like to know what you think the actual result of the referendum would be if it were held tomorrow? Please tell us what percentage share of the vote you think "No to Independence for Scotland" would get?
